4x4 LAKES ESCONDIDO and FAGNANO  
+ LUNCH

The tour begins picking up the passengers early in the morning. Once on the vehicles, we take the national route N°3 heading north to go through the mountain range where the landscape shows us Olivia and Cinco Hermanos mounts. We leave behind the Beagle Channel to find the Carbajal Valley, a marvelous glacial valley that reveals forest, peat bog, mountains and permanent snow.

We keep on going on the route until they reach 450 meters above sea level and cross the Andes. From the viewpoint "Paso Garibaldi" they enjoy a stunning panoramic view of Escondido and Fagnano lakes.

After that we head to the Bronsoovich sawmill and, from there, we take the provincial route 119, for about 10 km to find our Off Road circuit. It is an old loggers path that lead us to Fagnano lake. We go through an ancient lenga forest and some other obstacles that test our 4x4 vehicles.

---

Included in this tour, we drive to an incredible place nearby the lake to savor a tasty lunch and immerse ourselves in the magic of the place.

Once the tour is completed, we say goodbye to the wonderful landscape to drive back to Ushuaia city.

Itinerary\*

Approximate duration: 7 hours

- Pick-up at the hotel
- 4x4 Off Road tour
- Lunch
- Drive back to hotel
